## LIBRARY REPORT.

---

The twenty-second annual report of the Weeks Public Library for the year 1919-20 follows.

There have been listed 7 volumes received from the government, 6 by gift and 134 new titles by purchase. We had the misfortune to lose in the school fire 15 quite valuable books, some of which are now out of print, but the others have been replaced, so that our total listed number is now 6620.

Our circulation has returned to its pre-war proportions, as the number of volumes going out this year was greater than for five years before and that in spite of the fact that for five months we have opened on Saturday only and on some of those days has occurred the worst weather of the season. The Library was closed on one holiday only—July 4.

43 new borrowers have been added during the year and it is encouraging that quite a proportion of these are children, for it is particularly desirable that they should learn the resources of the Library and avail themselves of them.

The trustees feel that it is necessary to ask for an increase of \$100.00 in the town appropriation for the coming year. Our annual appropriation at present is the same that it was in 1897 when the Library was built and of course in the last few years there has been a great increase in the expenses. The price of books the coming year will be double, supplies have increased in cost, fuel and light are higher and the pay of librarian and janitor has been raised. We could get along this

year only by closing part of the time and by dispensing with a janitor except when fires made one necessary. It is true that we still have a balance but that is needed for emergencies and was made possible because we had coal enough for the season on hand, thus cutting one large item from our budget. Unless we have this increase many patrons will be deprived of a large part of the benefit and happiness which we shall no longer be able to supply.

The additions for the year follow:
